

26<sup>th</sup> November 2020

Sharia H's blog

Last week we started doing basketball although some of us found it tricky, but we still learned quickly. During maths, we learned time, which most of us found hard also but again we did learn quickly. In English, some of us did new things and the teacher (Mr Downing) played a song to teach the other kids (including me) parenthesis to help in our writing. We were still doing planets but we had to research them, I researched Venus and I was lucky because IT WAS MY FAVOURITE PLANET. Did you know that its atmosphere has way too much carbon dioxide and poisonous gas inside which is deadly?

Alice T's blog

Hello!! 😊 I'm Alice and I love my friends. Today, we did maths, guided reading, spelling and my favourite...ICT!! The reason why ICT is my favourite is because I love looking up facts that I'd never even know! This week has been quite strange because we had a new teacher for a bit, but we all coped with it happily😊

We are learning about planets, my favourite planet is... SATURN! Not because of its rings, just because it's VERY interesting. But I still LOVE Saturn's rings, they are very interesting. Did you know Saturn is a gas planet? And, Saturn was named after a roman god.

Because of covid-19, on the weekends we can't do anything, except be in your room and play games. That's what I do. I also keep in touch with my friends.

Robyn C's blog

Today is the 26<sup>th</sup> and our teacher is still sick! But we have had an amazing week and also I'M GETTING A DOGGY IN TWO WEEKS!!

I'm also excited as I got a head teacher's award for art!! This has been such a great week and I hope yours was too😊! We have been doing basketball and I love it <3 Although coronavirus has made this year quite boring it is 29 days till Christmas and soon I'll be in Year 6 😊 That's it for this week! I'll see you next time. Bye!!!!
